Instructions for C-8000ITC Investment Tax Credit

Purpose: To calculate an Investment Tax Credit (ITC) or an ITC recapture to be applied against the tax liability.

For tax years beginning after 1999, taxpayers may claim an ITC for a percentage of the net costs paid or accrued in a taxable year for qualifying tangible assets physically located in Michigan. The assets must be of a type that are or will become eligible for depreciation or amortization for federal income tax. Mobile tangible assets, wherever located, which would be subject to apportionment in the same manner as the tax base, and assets purchased or acquired for use outside the state and later moved into the state, also qualify for the ITC. The ITC must be taken before any other credit.

The ITC is calculated by multiplying net capital investments made in Michigan during the taxable year by an annualized percentage determined by dividing the SBT tax rate in effect for the year by the pre-1999 rate of 2.3%. The result is multiplied by a percentage based on adjusted gross receipts.

The ITC is not available if a gross receipts reduction to the adjusted tax base is taken to arrive at the tax liability. If the adjusted tax base is greater than 50% of the adjusted gross receipts, the adjusted tax base may be reduced by the excess on Form C-8000S, *SBT Reductions to Adjusted Tax Base*. In addition, the SBT Act allows taxpayers to reduce the adjusted tax base when the percentage of the tax base attributable to compensation exceeds 63%. If this reduction is elected, the ITC must also be reduced.

If a taxpayer acquires depreciable real or personal property during the taxable year, or disposed of depreciable real or personal property that was acquired in a tax year beginning after December 31, 1999, complete this form and attach it to the annual return.

Line-By-Line Instructions

Lines not listed are explained on the form.

In Parts 1 and 2 below, the calculation of gross proceeds may be reduced by selling expenses.

Line 2, Account Number. Enter the same account number used on page 1 of the Annual Return.

PART 1: Capital Investments.

Use Part 1 to determine the total eligible capital investments for the tax year. If more space is needed for any item, attach a separate sheet with appropriate information.

Line 3. Enter the description, location, date acquired and the total cost paid or accrued of all eligible depreciable tangible assets located in Michigan that were acquired during the tax year.

Line 5. Enter the description, location, date physically located in Michigan and the federal adjusted basis as of the date moved, of all eligible depreciable tangible assets purchased or acquired for use outside of Michigan in a tax year beginning after December 31, 1996 that were moved into Michigan during the tax year for a business use. Do not include Mobile Tangible Assets. The cost is the federal basis used for determining gain or loss as of the date the asset is physically located within the state.

Line 7. Enter the description, location, date acquired and the total cost paid or accrued for all depreciable mobile tangible assets that were acquired during the tax year, whether located in Michigan or outside Michigan.

Mobile tangible assets are all of the following:

- Rolling stock (railroad freight or passenger cars, locomotives, or other railcars), aircraft and watercraft used by the owner to transport property or persons for compensation or used by the owner to transport the owner's property for sale, rental or further processing; and
- Equipment used directly in completion of, or in construction contracts for, the construction, alteration, repair or improvement of property.

Line 9, Apportioned Mobile Tangible Assets. If taxable in another state, multiply line 8 by the percentage from Form C-8000H, *SBT Apportionment Formula*, line 16 or 19, whichever is applicable.

Line 10, Total Capital Investments. Add lines 4, 6 and 8 or 9 whichever applies. This amount will be used to determine the Net Capital Investment in Part 3.
